Structured Invest S.A. is authorised in Luxembourg and regulated by Commission de Surveillance du Secteur Financier (CSSF).

This document is dated 31/03/2025

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

This is a Sub-Fund (the "Sub-Fund") of onemarkets Fund. onemarkets Fund is an investment company with variable share capital (SICAV) with multiple Sub-Funds and governed by the Luxembourg Law of December 17, 2010 on Undertakings for Collective Investment.

Term

The Sub-Fund is established for an unlimited duration. The Management Company can proceed unilaterally to a redemption of a share class of an investor or switch the holding to another share class if the investor no longer meets the qualifying criteria to maintain the share class he holds. The Board of Directors may decide under certain circumstances to compulsorily redeem all shares of the relevant Sub-Fund or share class at the Net Asset Value per share for the valuation date in respect of which such decision shall be effective, and to terminate and liquidate such Sub-Fund or share class.

Objectives

Investment Objective: The Sub-Fund's investment objective is to provide long-term capital growth.

Investment Strategy: The Sub-Fund enters into one or more total return swap transactions in order to gain an indirect exposure to an actively managed cross-asset portfolio including the weighted constituents of a European stock index and Euro denominated investment grade bonds. The Strategy is an actively managed cross-asset portfolio, comprising of 40% to 60% equities replicating the Index with the balance allocated to Euro-denominated investment grade corporate and government bonds. The equity part of the Strategy is reflected through the "UC Capture-the-Change (Net Return) Index". For more information, please refer to the prospectus.

Investment Policy: The Sub-Fund's investment strategy is implemented in a two-stage process: The Sub-Fund invest primarily (at least 51%) in listed equities and ancillary in certificates, investments funds, bonds, money market instruments, cash and/or deposits. The performance of all or part of such investments (the "Investment Portfolio") is then exchanged against the performance of a floating leg, referencing EUR short-term rates, by entering into a total return asset swap transaction (the "Funding Swap"). The Sub-Fund then enters into a second total return swap transaction (typically for up to 100% of its total net assets) in order to receive the performance of the Strategy which is a portfolio constructed by the Investment Manager upon recommendations from the Investment Advisor against paying the performance of a floating leg, referencing EUR short-term rates. The economic effect of the Funding Swap and the Strategy Swap is that the

performance of the Sub-Fund is decoupled from the performance of the Investment Portfolio and linked to the performance of the strategy. The Sub-Fund may invest without limitation in instruments denominated in currencies other than the reference currency (EUR). At least 40% of the Strategy's assets are invested in bonds denominated in EUR, corporate bonds covered bonds, convertible bonds, municipal bonds, government bonds and inflation linked government bonds. Exposure in Emerging Markets is limited to 10%. For more information, please refer to the prospectus.

Derivatives: The Sub-Fund may use financial derivative instruments.

Securities Financing Transactions: The Sub-Fund may enter into transactions under SFTR.

Techniques and Instruments: Derivatives and other techniques and instruments may be used for efficient portfolio management and hedging purposes (including Total Return Swaps, Equity Swaps, Interest Rate Swaps, Credit Default Swaps, FX Swaps, FX Forwards, futures, options).

Benchmark and use: The Index falls under the Benchmark Regulation. For more information, please refer to the prospectus.

SFDR classification: The Sub-Fund qualifies as a financial product under Art. 8 of SFDR.

Distribution policy: This is an accumulating share class.

Subscription and Redemption: Shares are issued on each Valuation Day at the issue price. Shareholders are entitled to request the redemption of their Shares at any time at the Net Asset Value per share.

Currency: The reference currency of the Sub-Fund is the EUR.

Practical information: The Sub-Fund depositary is CACEIS Bank, Luxembourg Branch. Further information: This Key Information Document is prepared for a share class. Assets and liabilities of each Sub-Fund of onemarkets Fund SICAV are segregated, meaning that your investment in this Sub-Fund is only impacted by profits and losses in this Sub-Fund. The annual report, semi-annual report, prospectus, latest share price, and other practical information are available in English, free of charge, at www.structuredinvest.lu

Intended Retail Investor

This share class is open for retail investors. An investment in this Sub-Fund is suitable only for investors who are able to appraise the risks and economic value of the investment. The investor must be prepared to accept an increased volatility of the Sub-Fund and potentially high capital losses in order to achieve above-average potential investment performances. The Sub-Fund is intended for investors with a medium to long-term investment horizon.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 4 years. The actual risk can vary significantly if you cash in at an early stage and you might get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

For more information on risks the PRIIP is exposed to, please refer to "Appendix 5: Sub-Funds Specific Risk Factors" of the prospectus.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The tax legislation of the retail investor's home Member State may have an impact on the actual payout.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: 4 years			
Example Investment: EUR 10 000			
Scenarios		If you exit after 1 year	If you exit after 4 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	EUR 6 010	EUR 5 790
	Average return each year	-39.90%	-12.77%
Unfavourable	What you might get back after costs	EUR 8 170	EUR 8 990
	Average return each year	-18.30%	-2.63%
Moderate	What you might get back after costs	EUR 9 910	EUR 10 460
	Average return each year	-0.90%	1.13%
Favourable	What you might get back after costs	EUR 12 080	EUR 12 350
	Average return each year	20.80%	5.42%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment using a suitable benchmark between September 2021 and March 2025.

Moderate scenario: This type of scenario occurred for an investment using a suitable benchmark between May 2018 and May 2022.

Favourable scenario: This type of scenario occurred for an investment using a suitable benchmark between March 2020 and March 2024.

What happens if Structured Invest S.A. is unable to pay out?

The assets of the Sub-Fund are held in safekeeping by its depositary, CACEIS Bank, Luxembourg Branch (the "Depositary"). In the event of the insolvency of the management company, the Sub-Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations). The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time. There is no arranged compensation or guarantee scheme for investors in the Sub-Fund.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	EUR 594	EUR 1 453
Annual cost impact (*)	5.9%	3.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.4 % before costs and 1.1 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.50% of the amount you pay in when entering this investment.	Up to EUR 350
Exit costs	We do not charge an exit fee for this product.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.26% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 226
Transaction costs	0.18% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 18
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	EUR 0

How long should I hold it and can I take money out early?

Recommended holding period: 4 years

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product. Possible share class specific redemption fees have to be taken into account for disinvestments. You can redeem your investment at any time as set out in the prospectus. You may receive less than expected if you cash in earlier than the RHP since the Fund will be less likely to achieve its objectives. The RHP must not be taken as a guarantee or an indication of future performance, return or risk levels.

How can I complain?

If you are not entirely satisfied with any aspect of the Sub-Fund, the Management Company or the person who has given you advice on or sold the fund to you and you wish to complain, details of our complaints handling process are available on our website www.structuredinvest.lu. Additionally, you can also submit complaints to us: By mail: Structured Invest S.A., 8-10, rue Jean Monnet, L-2180 Luxembourg. By telephone: +352 248 248 88 Mon - Fri from 9:00 a.m. to 4:00 p.m. Luxembourg time. Or via email: complaintssi.uib.lu@unicredit.eu

In the event of a complaint, please describe the underlying facts in as much detail as possible and send us all the necessary documents. We will respond in writing only within no later than one month from the date of sending of the complaint.
